Description

## Simply drag the content of the .zip file into your KSP install directory, and inside GameData, check there are no duplicate of ModuleManager.dll

Installation:

**RasterPropMonitor**, by Mihara, MOARdV

Please download from their official download pages if you wish to have instruments in IVA mode.

**ASET Prop pack**, by alexustas

## Kerbal Foundries, by Lo-Fi/ShadowMage [contains Adjustable Landing Gears which are much better than stock landing gears. Two of the pre-built craft requires this.]

**Must Have Mods:** 

Pilot Assistant, by Crzyrndm

[can be used as auto pilot to maintain your heading, altitude and speed for long trips.] Janitor's Closet, by linuxgurugamer

[some parts of this mod look exactly the same as stock parts. Use this mod to avoid confusion.]

Forum: Mk3 Airliner Forum Page - For comments or bug report!

Thanks for downloading and supporting this mod!

Looking Forward to your feed backs!

Please click "view on Curse.com" in the project section and comment!

Post Reply

Can someone help me?

Forge\_User\_09804088 -

Hello, I am sorry, maybe I'm an idiot but I didn't have Cockpit Instruments.

\_ForgeUser22542511 🔻

It is missing the landing ear in the download pack?

Report Reply Quote Multi-quote

Yes, sorry i forgot to add the links for them:

**Kerbal Foundries**, by Lo-Fi/ShadowMage

kkgc3124 ▼

If you don't need other wheels in that mod, you can go to GameData/KerbalFoundries/Parts/ and delete everything but ALG (should be 4 of them)
